

LOWY BIOREPOSITORY COST RECOVERY SCHEDULE – MARCH 2013

Our schedule of estimated costs for accessing biospecimens and associated data already collected and stored by the Lowy Biorepository reflects where possible the pricing set out by the NHMRC draft proposal of DRC (June 2012). This cost recovery schedule reflects the costs associated with specimen collection, processing, consumables and storage and is only provided as a guide. Please contact the [Biorepository Manager](#) to evaluate your exact study requirements and develop a customised quotation.

ACCESS FEE	COST
Application processing	\$250
Amendment to application	\$125

FRESH TISSUE	UNIT/SIZE	COST
DNA	1µg	\$25
RNA	1µg	\$35

FFPE TISSUE	UNIT/SIZE	COST
DNA	1µg	\$25
Slide	5 µm	\$25
Slide with H&E scan	5 µm	\$40
Section/scroll	10µm	\$50
TMA (5µm section)	50 case array	\$120

BLOOD	UNIT/SIZE	COST
DNA	1µg	\$25
Plasma/serum	500µL	\$75
WBC pellet	min 1x10 ⁶ cells	\$30
BMA cell pellet	min 1x10 ⁶ cells	\$30

CLINICAL DATA	UNIT/SIZE	COST
Basic demographic & diagnostic data	Per case	\$10-25
Treatment data	Per case	\$50-100
Follow up data	Per case	\$25-50
